

Climate Emergency Online Conference

GREEN EUROPEAN FOUNDATION

Achieving zero carbon tra industry

GREEN HOUSE
THINK TANK

Friday 25 September, 2–4.30pm

How do we break through the obstacles currently preventing the UK reaching net zero carbon emissions? Come and share ideas on the policy changes needed to change to meet climate goals.

Speakers include:

- **Natalie Bennett**, Green Peer
- **Ellie Chowns**, International Spokesperson for the Green Party of England and Wales
- **Jean Blaylock**, Campaigns and Policy Manager, Global Justice Now
- **Saskia Bricmont**, Belgian MEP and Committee on International Trade member.
- **Anna Cavazzini**, German MEP and Committee on International Trade member
- **Jonathan Essex** and **Peter Sims**, Green House
- Speakers from **Ireland** and **The Netherlands**

As the post-Brexit Trade Bill progresses through parliament, and the Citizens Assembly report has shown that the UK public has an appetite for strong climate action, this is the time to consider the trade and infrastructure requirements of zero carbon.
